

Bobby Graham – Digital Marbling

**Workshop Description:**

If you like marbling, you're going to like this session. We explore different techniques: how to push and pull colour, distorting it with twills and pinches. If this sounds like fun, you'll enjoy even more. We work with colour and clipping masks to add zing to your artwork.

This class can be taken as a stand-alone class or as a follow-up to the Digital Basics Class. Bring your iPad, Apple Pencil and have the Procreate App download to your iPad prior to class.

**Equipment:**

- Ipad with Procreate (application downloaded).
- Apple Stylus (fully charged).
