

Seraphina Martin: Solar Etching and Viscosity Printing 4 & 5 March 2023

Materials List:

THINGS TO BE BROUGHT BY PARTICIPANTS:

- Images of your drawings or photographs, which need to be photocopied onto a transparency in Black and White only at Officeworks as their quality is superior.

Note: Home printers are not recommended with Inkjet ink as it doesn't dry on transparencies only laser.

- Image size will need to be made as A 5 and A6 to fit the Solar Plate size. If none of this is available, a generic assortment of images will be provided to use on the day.

- Printmaking paper.

- Gloves from supermarket, apron. Wear closed shoes.

MATERIALS PROVIDED by Seraphina Martin

Additional cost for each student: **\$40**

Please have the \$40 in an envelope marked with your name to give to Seraphina.

* Some printmaking paper for up to 4 prints from each plate.

* 2 A5 solar plates or 1 A5 and 2 A6 size solar plates as well as a small test plate.

* An assortment of generic images already copied onto transparencies will be available to make a collage at the workshop if necessary.

* All printmaking inks for intaglio printing as well as Viscosity Colour printing.

* All Printmaking aids, butchers paper, Tarlatan and baby oil.

* The use of large printing rollers for Viscosity printing.

* UV lights as a back-up for exposing plates.
