STUDIO D, M16 ARTSPACE, GRIFFITH ACT

COURSE OUTLINE

Join me for a two-day expressive drawing workshop designed to spark your creativity and expand your approach to drawing and mark-making!

On Day 1, we'll begin with a series of innovative exercises that introduce fresh perspectives on line, form, and rhythm. You'll explore continuous line and tonal drawing, be introduced to various mark-making techniques, and learn how to create interesting compositions with atmosphere, movement, and energy. As the day progresses, you'll apply these techniques to larger-scale drawings, focusing on blending abstraction and realism in bold and engaging ways.

On Day 2, we will draw with ink using unconventional tools. You'll discover new experimental mark-making methods that combine spontaneity with intention, helping you create more expressive drawings. We'll also explore a wide range of tools and techniques to expand your creative toolkit, encouraging you to produce sensitive, captivating drawings that challenge traditional approaches.

Throughout both days, you'll enjoy a joyful and open environment where every artist is encouraged to tap into their unique creative voice. This workshop promises to be an inspiring, innovative, and transformative experience. Artists of all skill levels are welcome!
